To whom it may concern,

This Letter of Recommendation covers the employment of Tomasz Olszewski with Imagini through 2013. We have collaborate with Tomek on a variety of mobile and web projects including MOOD V1 and V2, MOOD web and Quiz Yourself. He proved to be an excellent iOS and back-end developer and helped the company deliver exceptional mobile products. He was always available through Skype and email and was quick to respond to any issues that arose through the entire lifecycle of the projects.

I would strongly recommend Tomasz Olszewski as an iOS developer.

Please don't hesitate to contact me if you have any queries.

Best regards,

Mat Siemaszkiewicz

Technical Project Manager, Imagini Europe Inc.
